SKILLS

- **App Development:** Flutter, Dart, Provider, BLoC, MVVM, UI/UX Design
- **Backend:** FastAPI, Python, Firebase, REST APIs, JSON, SQLite, Hive
- **Data Science:** NumPy, Pandas, Matplotlib
- **Cyber & OS Tools:** Kali Linux, Networking, Git & GitHub, Terminal Commands
- **Other Skills:** Problem Solving, Debugging, Deployment (Play Store & Web)

EXPERIENCE

A skilled app developer with expertise in Flutter, Dart, and UI/UX design, complemented by a strong foundation in backend technologies such as FastAPI and Python. Proficient in data science tools including NumPy and Pandas, with a keen understanding of cyber security and OS tools like Kali Linux. Demonstrates exceptional problem-solving abilities and debugging skills, with experience in deploying applications to the Play Store and web platforms. Career goals include advancing app development capabilities while integrating innovative solutions across diverse technological landscapes.

WORK HISTORY

Flutter, FastAPI & Python Developer 04/2025 - current
flutter developer - peshawar, pakistan

I am a dedicated **Flutter and Python Developer** with strong skills in designing and developing modern, responsive, and scalable applications. I specialize in building **cross-platform mobile apps** using **Flutter** and **backend APIs** using **Python (FastAPI)**.

My experience includes developing real-world projects with **Hive** for offline storage, **Provider/BLoC** for state management, and **RESTful API** integration for smooth data communication. I also have hands-on expertise in **OOP concepts**, **file handling**, and **data processing** in Python.

EDUCATION

Bachelor of Science: cybersecurity, 06/2025 - 06/2029

Imscience Univercity - Peshawar, Khyber Pakhtunkhwa

F.SC : pre-engineering, 05/2023 - 05/2025

Islamia College Peshawar - Peshawar, Khyber Pakhtunkhwa

Matric : pre-engineering, 05/2021 - 05/2023

Afridi Model school College Peshawar - Peshawar, Khyber Pakhtunkhwa

HOBBIES AND INTEREST

- Building personal coding projects and exploring new technologies
- Learning about app development and backend systems
- Contributing to open-source projects on GitHub
- Solving programming challenges and improving problem-solving skills
- Designing clean and modern mobile app interfaces
- Reading tech articles and staying updated with software trends
- Sharing knowledge and helping others learn to code
